[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)
Semiconductor memory device

US Pat. 7369433 - Filed Jun 28, 2006 - Kabushiki Kaisha Toshiba

Further, the **row** decoders 4t ... In detail, in this embodiment, in which a four-value data **storage** scheme is used, the sub-page address designates two-bit ...

[APPLICATION] System and method for mining data

US Pat. 11455304 - Filed Jun 16, 2006

In this case, the UI does not have sufficient **space** to display all fields of ...
to the item displayed simply by double-clicking on the relevant list **row**. ...

[APPLICATION] Methods and apparatus for updating a communications device using SMS messages

US Pat. 11452099 - Filed Jun 13, 2006

... eg, while in a purse or **storage** compartment. [0046] In contrast to most cell
... each application corresponds to a **row** 350, 352, 354 in the list 326. ...

[APPLICATION] Semiconductor memory device

US Pat. 11369252 - Filed Mar 27, 2006 - KABUSHIKI KAISHA TOSHIBA

Further, the **row** decoders 4t and 4c are configured to have such a selection ...
set in the main page address in case of multi-value data **storage** scheme. ...

Semiconductor memory device

US Pat. 7349249 - Filed Mar 27, 2006 - Kabushiki Kaisha Toshiba

The first area is a normal data **storage** area while the second data area is a ...
Row decoder 2 includes word line drivers and selectively drive word lines ...

[APPLICATION] Method and system for decreasing power consumption in memory arrays having ...

US Pat. 11176819 - Filed Jul 7, 2005

Address decoder/mapper 24 provides signals to a **row**/column access circuit 20
that ... a smaller counter width can be used resulting in lower **storage** ...

Rendering page sets

US Pat. 7275211 - Filed Jul 2, 2004 - Cognos Incorporated

If the logical 60 details page has only one **row** of data, and a logical page ...
resulting a last logical details **subpage** having a number being smaller than ...

[APPLICATION] Allocation locks and their use

US Pat. 10879664 - Filed Jun 29, 2004 - Microsoft Corporation

... operations of concurrent transactions at a **subpage** level (eg, a **row** level),

... copies of the page do not consume all of **storage space** on that page), ...

[APPLICATION] Concurrent transactions and page synchronization

US Pat. 10879665 - Filed Jun 29, 2004 - Microsoft Corporation

... a **row** level) the transaction TL initiates required modification on the

copied ... copies of the page do not consume all of **storage space** on that page),

...

[APPLICATION] Systems and methods in support of data base page synchronization

US Pat. 10826509 - Filed Apr 16, 2004 - Microsoft Corporation

Such operations can for example include **row** level manipulation of data in each

page. ... as no **storage space** is required for the page aggregator. ...
